Objective

Motivated and detail-oriented IT graduate with a strong academic background and hands-on experience in multiple successful university projects. Demonstrates excellent problem-solving abilities, a passion for learning, and a commitment to delivering high-quality digital solutions. Strong understanding of technology principles, with a focus on creating user-friendly and practical applications. Ready to contribute to a dynamic team and grow in a professional environment.

Education

Bachelor of Information Technology

Dec 2021 - Jul 2025

University of Sialkot, Pakistan

Graduated with a comprehensive academic background in Information Technology, with a focus on software development, database systems, web and mobile applications, and IT infrastructure. Developed strong technical and analytical skills through hands-on projects, preparing for real-world challenges in the tech industry.

Certificates

MS-Word(Office 2016)

Apr 2021

Successfully certified by Microsoft in MS Word, demonstrating proficiency in document creation, formatting, and editing.

MS-Excel (Office 2016)

May 2021

Successfully certified by Microsoft in Excel, with skills in handling data, using formulas, and creating charts.

MS-PowerPoint (Office 2016)

Jun 2021

Successfully certified by Microsoft in PowerPoint, with skills in making clear and creative presentations using slides, animations, and media.

Web Designing

Jun 2023

Completed a Web Designing course focused on website layout, structure, and basic design principles, with practical knowledge of creating user-friendly web pages.

Internships

Front Desk officer

Oct 2023 - Nov 2023

Punjab Police Department, Pakistan

Handled public queries, maintained visitor records, assisted in complaint registration, and supported daily front desk operations in a professional and secure environment.

Academic Projects

Faculty Transitive Hub – Web Application

Developed a web-based platform that connects drivers and passengers for seamless seat booking and transit coordination

Designed and implemented a responsive website where drivers can register by submitting route details, available seats, and vehicle information. Passengers can browse listed routes and book available seats. The system streamlines daily travel arrangements, offering an organized and user-friendly interface for managing shared rides.

Student Learning App

An educational mobile application designed to enhance student learning with interactive features.

Designed a mobile app to provide students with personalized access to learning resources. Integrated Firebase for authentication and real-time data, with a user-friendly dashboard displaying profile details.

Final Year Project-Ride Ease App

Designed and developed a comprehensive mobile application to facilitate secure and efficient ride-sharing for university students.

Developed a ride-sharing mobile app with role-based access for Students, Drivers, and Admins. Key features include secure login, seat booking, real-time route tracking, SOS alerts, and complaint handling. Designed to offer a flexible and scalable solution for everyday commuting.

Extracurricular Activities

Member – ACM Student Chapter

Information Technology Department, University of Sialkot, Pakistan

Actively participated in organizing and attending technical workshops, seminars, and community events at the University of Sialkot. Contributed to promoting collaboration, innovation, and student engagement within the ACM International Community.
